C. B. GIBSON,

ANALYTICAL CHEMIST.

Chicago College of Physicians and Surgeons, GIVES HIS OPINION OF

DR. PRICE'S **CREAM BAKING PO** 

Messrs. STEELE & PRICE,

Gentlemen: - After the examination of many samples of Baking Pow-

ders, which I purchased in the open market, I find DR. PRICE'S CREAM BAKING POWDER to be a superior article, free from any adulturant or deleterious chemical, such as Terra Alba, Alum, etc. I find it to be composed of articles of a superior quality, combined in such proportions as to render the greatest volume of Carbonic Acid Gas, which shows it to be a perfect powder, based on scientific formulie. I find it to contain no Ammonia compounds, which are products of animal and vegetable decomposition, and which I would consider unhealthful, inasmuch as it is absorbed by the dough to a certain extent in the baking process. In fact, by my examination and experiments I am led to believe "Dr. Price's Cream Baking Powder" to be a superior article, and one for efficiency and healthfulness, I would not hesitate to recommend. Respectfully, C. B. GIBSON,
